Although his appearance is intimidating, you notice that his ribs stick sharply from his pelt. He growls menacingly and steps in front of a blackbird that he had killed, on your Clan's turf! You must make a split second choice- what do you do?** <<

• **Ignore his condition and attack; all that matters is that he's trespassing and eating stolen prey!** - of ShadowClan

• **Run away and forget that encounter; you don't want trouble, and besides, whats one blackbird? Its obvious he was starving** - of WindClan

• **Quickly go find your mentor, who shouldn't be too far away; they're older and would know what to do!** - of RiverClan

> 1st Year Contest Results <

[image]

TOPIC: *Please write a minimum of 3 chapters about an unknown or mysterious creature in the Lake Territory---or Forest Territory--- that has been terrorizing the Clan(s) of your choice. (Got that spooky October theme. . .)*

Hello Clanmates. First off, I'd like to start by saying that I am completely blown away by everybody's talent and imagination. Each story was amazing and it was not easy choosing the top 3, trust me on that. Also, a big thank you goes out to everybody who participated!!!

{The entries were judged on aforementioned criteria, but the point value will not be publicly posted. Oh, and a disclaimer here- SynikTheCritic and I remained *unbiased* during the judging so that all (newcomers and friends alike) have a fair chance.**}**

Alright, I feel like I should get to what you all really want to know. *Who won?*

The winners of the 2015 Anniversary Contest are. . .

~1st Place~

Nyan_Narwhal !!! You really gave it your 110% on this and it showed, from the plot line to the execution, everything was just *wow*. The imagination on this was wild and I loved how this ended with sort of a cliffhanger. I would read this if you continued it into another book!!!

~2nd Place~

Stardustdragon345 ! Your story was so dark and foreboding that I just wanted to read more! The *Corpses* reminded me of dementors,

and I could really feel the cats' fear upon seeing them. Coupled with the almost apocalyptic theme made for an exciting read that I highly recommend. *(Prize: let me know which story you'd like the votes to be cast on)*

~3rd Place~

TigerOfGood97 !! A wonderful book with creative plot and very well written chapters. I really liked the unconventional ending. Fantastic job on this!!

Now if you didn't make the Top 3, don't be upset. All who entered did better than I could have hoped for. I won't be posting the rest of the places, but here are the Honorable Mentions of those that really deserve to be acknowledged for their great entries! I enjoyed reading each and every one :3

JayCat1017
X_NomKitty_X
omenofthestars
Tigerprisim-42
coyote246

Hopefully everybody had some fun while doing this, and together let's 'generate' (hahaha I'm sorry XD) another awesome year!

May StarClan light your path :3

~-Thunderheart-

Thanks For Reading!

Useful Cover Apps has been moved to Random Book of Thoughts

I would like to give a huge thank you to all who read and/or voted for this book! It wouldn't have gotten so far without you all. Please tell me suggestions or comments, as I would appreciate hearing them. Thanks again for the votes, reads & follows, and may StarClan light your path!
